Insurance
Gerald Stanford of Stanford Insurance was present to answer questions about the handout and the insurance coverage for the city. Council Member Nepereny asked a question about what full coverage meant and Mr. Stanford explained that full coverage is actually layman's term used to talk about insurance. There was also discussion about the new police car. It should have full coverage with the purchase value on the policy and the purchase price - not the depreciation value. Which means full replacement value. The city has a total of 36 cars with 11 police cars in service. He stated that the equipment is more valuable than the car. The council would like to sit down with Mr. Stanford and go through the list that is insured and check the value of each. Our policy is good until 2012 and Mr. Stanford is still our Insurance Consultant.

Adjournment of Meeting
Mayor Barrow adjourned the meeting at 2:42pm.

The Council was in agreement that they would all feel better to have our attorney look over the contract before acceptance.

Subject: Re: NIMS Testing

Here is the link for the NIMS tests that is a requirement of your job. All governmental employees are required to take these tests. I spoke to the City Council at last night's City Council Meeting about the NIMS testing and I have been informed that I can provide each of you with a copy of a **sample test and answer sheet** for the required NIMS tests. I have also printed the manuals and have them in City Hall for you to review at your leisure and you are welcome to use the computer in the Council room to take your test. Please remember that according to **FEMA's website that the tests are random tests given** by them therefore, you will have to find out your answers on your own. My sample test copies that I am giving you are just a guideline.

Please take the following tests that coincide with your job.

I am here if I can be of any assistance.
