ATTACHMENT 2 CONDITIONS AND REQUIREMENTS

GENERAL TERMS AND CONDITIONS

1. Enough detail is given in the BID to describe the item being BID, although not written, full manufacturer's specifications are implied. Manufacturer's specifications take precedent over information within this BID if any discrepancy exists.
2. Plans, Drawings, Specifications, Special Provisions, and other documents shall be considered a part of the BID Form whether attached or not.
3. Prospective BIDDERS must be able to show that they can perform each of the various items of Work upon which they BID and that the equipment necessary for the completion of Work is available. The BIDDER shall be licensed as a CONTRACTOR when required by state law. Such license shall be in effect prior to the date and time specified for receipt of BIDs by the City of Parker.
4. Should the BIDDER to whom the award of contract was made, fail to execute any of the required and acceptable bonds, the award of contract shall be annulled, and the BID Bond posted by the BIDDER shall be retained by the OWNER, not as penalty, but as liquidated damages. Award will then be given to the next BIDDER selected by the OWNER with a qualified BID.
5. **The Work**
 - a. Intent is for the CONTRACTOR to provide for construction, completion in every detail of the Work, furnishing all labor, materials, equipment, tools, transportation, and supplies required to complete the Work in accordance with the Contract Documents.
 - b. The OWNER's Designated Representative shall have the right to make alterations in the drawings or specifications as considered necessary or desirable during the progress of the Work for satisfactory completion of the Work. No alterations shall be made which will result in a substantial change in the general plan, character, or basic scope of the Work.
 - c. Upon completion of the Work, before acceptance by the Engineer or Architect of Record and before final payment, the CONTRACTOR shall remove all equipment, surplus, discarded materials, rubbish and temporary structures and shall restore, in an acceptable manner, all property, both public and private, damaged during the performance of the Work.

6. Control of the Work

- a. At project completion, the CONTRACTOR shall furnish, on sheets not larger than 24-inches by 36-inches, as-built drawings of utility lines, stormwater pipes, and structures showing any deviation from the plans and specifications that exceed 0.1 feet in vertical elevation and 1 foot in horizontal location and any change to the type of construction material and size. The as-built drawings shall be signed and sealed by a Florida-licensed professional land surveyor or professional engineer.
- b. The CONTRACTOR shall take no advantage of any apparent error or omission which he might discover in the drawings or specifications. In the event that an error or omission is discovered by the CONTRACTOR, he shall, within 24 hours of such discovery, notify the OWNER's Designated Representative who shall then make such corrections and interpretations deemed necessary for reflecting the actual spirit, intent, and scope of the drawings and specifications.
- c. The OWNER shall have the final say on all questions, difficulties, and disputes, of whatever nature, which may arise relative to the interpretation of the drawings and specifications.
- d. The CONTRACTOR shall furnish and set slopes stakes, rough grade stakes and all other stakes necessary for construction of the project.
- e. Failure to remove or refusal by the CONTRACTOR to remove defective materials or Work or make necessary repairs to damaged Work shall be cause for the OWNER's Designated Representative to make the necessary corrections at the expense of the CONTRACTOR with such monies being deducted from the contract amount or charged against the bonds.
- f. The CONTRACTOR shall notify the OWNER's Designated Representative when the project is substantially complete. If the OWNER's Designated Representative determines the project is substantially complete, a "Certificate of Substantial Completion" will be issued by the OWNER.
- g. The CONTRACTOR shall maintain all Work in first-class condition until it has been completed as a whole and accepted by the OWNER's Designated Representative. The CONTRACTOR shall be responsible for the security and protection of all materials used in the project until a "Notice of Completion" is issued by the OWNERS.

- h. Any written claim for compensation due to delays, additional, or extra Work shall include the following:
 - 1) For delay claims, provide a critical path schedule showing the delay is due to a controlling item of Work as well as the early start, late start, early finish, late finish, and the critical paths.
 - 2) A detailed factual statement providing dates, locations, and items of Work affected in each claim.
 - 3) The date on which actions or conditions resulting in the claim became evident.
 - 4) All pertinent documents and substance of any material oral communications relating to the claim and the name of the persons making the oral communications.
 - 5) The written claim shall identify the provisions of the Agreement which support the claim along with a detailed explanation as to why these provisions support the claim.
 - 6) A detailed breakdown of compensation sought for labor expenses, additional material, and supplies, listing of each piece of equipment and cost, any direct and indirect damages, and all documentation in support thereof.
 - 7) Equipment rental rates that are based on Blue Book Rental rates.
- i. The OWNER will not compensate the CONTRACTOR for any delays for any reason unless 5 days (excluding Saturdays, Sundays, and holidays) have elapsed from the start of Work stoppage. The first day of any claims shall be on day six of the Work stoppage. This shall apply to each Work stoppage.
- j. The OWNER expects the CONTRACTOR to use forces and equipment on any item of Work that can be completed during the delay. The CONTRACTOR's claim must show the delay is due to the controlling item of Work as shown on the critical path method schedule. After 5 workdays if the OWNER deems the delay claim to be valid, the CONTRACTOR's claim shall only be for labor, equipment and materials that are delayed due to the controlling Work item.

If the OWNER's Representative Engineer determines the CONTRACTOR forces and equipment can be used on other Work items during the delay, no compensation will be given for these forces and equipment.

- k. Unless otherwise stated in the plans or specifications, the term "install" shown in the plans and specifications shall be interpreted by the CONTRACTOR to mean the same as "furnish and install", which means the CONTRACTOR shall provide all materials, equipment, and labor to completely install the item shown in the plans or specifications.

7. Material Control

- a. Only materials conforming to the requirements and intent of the drawings and specifications will be used and all such materials not specifically identified in the plans and specifications will be approved by the Engineer or Architect of Record prior to use to perform the Work. Reference in the contract documents to a proprietary device, product, material, or fixture to establish a quality standard is not intended to limit competition. The CONTRACTOR may use any proprietary device, product, material, or fixture that in the Engineer of Record's judgment is equal, for the purpose intended.
- b. The CONTRACTOR shall ensure that OWNER personnel have entry at all times to the construction site in order to inspect and evaluate any or all materials used for performing the Work. The OWNER's Designated Representative shall have the right to sample and test any or all materials used in performing the Work. Copies of any tests accomplished by the OWNER's Designated Representative will be provided to the CONTRACTOR.
- c. Materials shall be stored as specified in the Contract Documents or as per the material manufacturer's recommendations. The protection of stored materials shall be the responsibility of the CONTRACTOR and the OWNER shall not be liable for any loss, theft, or damage to stored materials.
- d. Any materials found to be defective by the CONTRACTOR or the OWNER's Designated Representative shall be removed from the Work or place of storage at the CONTRACTOR's expense and replaced at the CONTRACTOR's expense.

Failure or refusal by the CONTRACTOR to accomplish the removal and replacement of defective materials from the Work or place of storage shall be grounds for the OWNER's Designated Representative to do same at the expense of the CONTRACTOR and such expense deducted from the contract amount or from the bond.

- e. The CONTRACTOR shall, at all times during construction, provide and maintain proper equipment and facilities to promptly remove and properly dispose of all water entering excavations and keep such excavations dry so as to obtain a satisfactory undisturbed sub-grade foundation condition until the fill, structure, or pipes to be built thereon have been completed to such extent that they will not be floated or otherwise damaged by allowing water levels to return to natural elevations.

- f. The CONTRACTOR shall furnish all materials and equipment and perform all Work required to install and maintain the drainage systems for handling groundwater and surface water encountered during construction of structures, pipelines, and compacted fills. The CONTRACTOR shall obtain Florida Department of Environmental Protection (FDEP) and Northwest Florida Water Management District (NFWFMD) permits for all dewatering operations. During dewatering operations all engines shall be equipped in a manner to keep pump noise to a minimum. If dewatering is required after 10:00 p.m. near residences and businesses, pump noise shall not create a nuisance to the property owners. The CONTRACTOR is solely responsible for any damages to private or public property caused by CONTRACTOR's dewatering operations. During dewatering operations, the CONTRACTOR shall notify all businesses and residences within a minimum of 300 feet of the dewatering operations to turn off all irrigation pumps. The 300-foot limit is a minimum, and the CONTRACTOR is responsible for any damage to private property, to include, but not limited to loss of plants, burned out pumps, building, pavement, sidewalk, or any other structural settlement, etc. that can be attributed to the dewatering operations. The OWNER will assume no liability nor pay for any claims, arising from the CONTRACTOR's dewatering operation.

8. CONTRACTOR Responsibilities

- a. The CONTRACTOR shall relieve the OWNER from any and all claims arising from claims by holders of trademarks, patents or copyrights used or incurred by the CONTRACTOR in performing the Work.

- b. The CONTRACTOR shall be responsible for all damages arising out of his use of explosives when deemed necessary in the performance of the Work.
- c. The CONTRACTOR shall preserve from damage all public and private property along the line of construction and adjacent to the Work. If the CONTRACTOR fails to restore such property, the OWNER's Designated Representative, upon written notification, as deemed necessary, may proceed to repair the damaged property and the cost deducted from the contract sum.
- d. Arrangements for utilities to the site shall be accomplished by the CONTRACTOR and in doing same he shall coordinate with the appropriate utilities for the just and proper utilization of any space where construction shall entail the joint use of area under this Work and the utility construction.
- e. Final acceptance will not be given, nor will bond be released unless any and all claims against the CONTRACTOR are paid or the CONTRACTOR has otherwise been relieved of the claim.
- f. Until acceptance of the Work by the OWNER's Designated Representative, the Work shall be under charge and custody of the CONTRACTOR, and he shall take every precaution against injury or damage to the Work by the action of the elements or from other causes.

9. Prosecution and Progress

- a. The CONTRACTOR shall not sublet, sell, transfer, assign or otherwise dispose of the contract or subsequent agreements of the contract without written consent of the OWNER.
- b. The CONTRACTOR shall commence Work on or after the Notice to Proceed date and shall provide sufficient resources to ensure completion of the Work within the time limit set forth. Should the CONTRACTOR fail to provide sufficient resources to assure timely progress and if he fails to perform the Work within the specified time, the OWNER shall have ground to claim default.
- c. The CONTRACTOR shall schedule his operations to minimize any inconvenience to adjacent businesses or residences. The CONTRACTOR shall take special precautions to restrict his major operations in performing the Work to what is commonly understood to be "normal" or "standard" working hours. Work performed at other periods requires preapproval from the OWNER's Designated Representative.

CITY OF PARKER
RFP 2022-02: CITY-WIDE STORMDRAIN SYSTEM IMPROVEMENTS

- d. The CONTRACTOR shall maintain reasonable access at all times to all businesses and private residences and properties adjacent to the construction area or impacted by the construction.
- e. The OWNER's Designated Representative shall make provision for and shall schedule a pre-construction conference with the CONTRACTOR and all concerned parties in attendance.
- f. The CONTRACTOR shall provide a detailed schedule to the OWNER within 5 working days after the date of the preconstruction conference. Adherence to the CONTRACTOR's construction schedule is critical to the residences and businesses impacted by the project. The CONTRACTOR shall give the OWNER 48 hours' notice of schedule changes and shall submit a new and complete changed schedule. The OWNER will not allow any lane closure or paving operations without 48 hours' notice. The CONTRACTOR shall give the City Inspector 48 hours' notice of commencement of all major Work items.
- g. The CONTRACTOR shall assure that all supervisory personnel employed by him/her are fully qualified and competent to properly perform the Work in coordination with other trades at the Work and can perform the Work within the specified periods of time.
 - 1) The CONTRACTOR shall maintain a competent superintendent at the site at all times while Work is in progress to act as the CONTRACTOR's agent. The superintendent shall be capable of properly interpreting the Contract Documents and shall be thoroughly experienced in the type of Work being performed. The superintendent shall have full authority to receive instructions from the OWNER's Designated Representative and to execute the orders or directions of the OWNER's Designated Representative, including promptly supplying any materials, tools, equipment, labor, and incidentals that may be required. This superintendent must be at the project site to supervise subcontractors. The superintendent must speak and understand English.
 - 2) The CONTRACTOR shall designate a responsible person who speaks and understands English, and who is available at or reasonably near the worksite on a 24-hour basis, 7 days a week who is the point of contact during emergencies.

- 3) The OWNER's Designated Representative shall have the authority to suspend the Work, wholly, or in part, for such periods as may be deemed necessary due to unsuitable weather or other conditions considered unfavorable for performance of the Work.
- 4) The CONTRACTOR may be declared in default for non-progress, by the OWNER's Designated Representative, when the percentage value of dollar Work completed with respect to the total amount of contract is not within 20 percent of the time elapsed versus the total performance period.
- 5) The CONTRACTOR may subcontract for Work identified in this solicitation. The CONTRACTOR will be the prime service provider and shall be responsible for all Work performed and contract deliverables. The CONTRACTOR's workforce shall be responsible for at least 51 percent of the Work performed and provide an on-site, full-time job supervisor to manage the day-to-day job site operations and subcontractors. Proposed use of subcontractors should be included in the response to this solicitation.

10. Payments and Acceptance

- a. Payment will not be made until the Work invoiced is completed in full. If material or equipment acceptance testing is required, payment will not be made until satisfactory test results as determined by the OWNER's Designated Representative are delivered to the OWNER.
- b. The CONTRACTOR shall accept the compensation as provided in the contract as full payment for furnishing all materials and for performing all Work planned under the contract.
- c. The contract price shall include all labor, equipment, material, tools, and incidentals required for completing the Work.
- d. Subsoil conditions, if presented, must be interpreted within the limits of investigation and the anticipated normal field variances. Claims for unusual conditions or excessive amounts of fill or excavation over original estimates of the Engineer-of-Record or CONTRACTOR shall not be grounds for extra Work clauses or request.

In anticipation of alcohol being served, the CONTRACTOR shall provide evidence of coverage for liquor liability in an amount equal to the general/umbrella/excess liability coverage. If the general liability insurance covers liquor liability (e.g., host or other coverage), the CONTRACTOR's agent or insurer should provide written documentation to confirm that coverage already applies to this agreement, contract, or lease. If needed coverage is not included in the general/umbrella excess liability policy(ies), the policy(ies) must be endorsed to extend coverage for liquor liability, or a separate policy must be purchased to provide liquor liability coverage in the amount required.

Owners Protective Liability Coverage

For renovation or construction contracts, the CONTRACTOR shall provide for the OWNER an OWNER's protective liability insurance policy (preferably through the CONTRACTOR's insurer) in the name of the OWNER. This is redundant coverage if the OWNER is named as an additional insured in the CONTRACTOR's Commercial General Liability insurance policy. However, this separate policy may be the only source of coverage if the CONTRACTOR's liability coverage limit is used up by other claims.

Builders Risk Coverage

Builders Risk insurance is to be purchased to cover subject property for all risks of loss (including theft and sinkhole), subject to a waiver of coinsurance, and covering off- site storage, transit and installation risks as indicated in the Installation Floater and Motor Truck Cargo insurance described hereafter, if such coverages are not separately provided. If flood and/or earthquake risks exist, flood and earthquake insurance are to be purchased.

If there is loss of income, extra expense and/or expediting expense exposure, such coverage is to be purchased. If boiler and machinery risks are involved, boiler and machinery insurance, including coverage for testing, is to be purchased.

The Builders Risk insurance is to be endorsed to cover the interests of all parties, including the OWNER and all contractors and subcontractors. The insurance is to be endorsed to grant permission to occupy.

Installation Floater Coverage

Installation Floater insurance is to be purchased when Builder's Risk insurance is inappropriate, or when Builder's Risk insurance will not respond, to cover damage or destruction to renovations, repairs or equipment being installed or otherwise being handled or stored by the CONTRACTOR, including off-site storage, transit, and installation. The amount of coverage should be adequate to provide full replacement value of the property, repairs, additions, or equipment being installed, otherwise being handled, or stored on or off premises. All risks coverage is preferred.

Motor Truck Cargo Coverage

If the Installation Floater insurance does not provide transportation coverage, separate Motor Truck Cargo or Transportation insurance is to be provided for materials or equipment transported in the CONTRACTOR's vehicles from place of receipt to building sites or other storage sites. All risks coverage is preferred.

Contractor's Equipment Coverage

CONTRACTOR's Equipment insurance is to be purchased to cover loss of equipment and machinery utilized in the performance of work by the contractor. All risks coverage is preferred.

The Contract may declare self-insurance for CONTRACTOR equipment.

Fidelity/Dishonesty/Liability Coverage – Third Party

Fidelity/Dishonesty/Liability insurance is to be purchased or extended to cover dishonest acts of the Other Party's employees resulting in a loss to decedent, i.e., theft of valuables.

Fidelity/Dishonesty Coverage for Employer (Contractor)

Fidelity/Dishonesty insurance is to be purchased to cover dishonest acts of the CONTRACTOR's employees, including but not limited to theft of vehicles, materials, supplies, equipment, tools, etc., especially property necessary to work performed.

Fidelity/Dishonesty/Liability Coverage for OWNER

Fidelity/Dishonesty/Liability insurance is to be purchased or extended to cover dishonest acts of the contractor's employees resulting in loss to the OWNER.

Electronic Data Liability Insurance

The Other Party shall purchase Electronic Data Liability with limits of

Garage Liability Coverage

Garage Liability insurance is to be purchased to cover the CONTRACTOR and its employees for its garage and related operations while in the care, custody, and control of the OWNER's vehicles.

Garage Keepers' Coverage (Legal Liability Form)

Garage Keepers' Liability insurance is to be purchased to cover damage or other loss, including comprehensive and collision risks, to the OWNER's vehicles while in the care, custody, and control of the CONTRACTOR. This form of coverage responds on a legal liability basis, and without regard to legal liability on an excess basis over any other collectible insurance.

Damage to Premises Rented/Leased to you- (Legal Liability Form)

Provide property coverage for leased premises due to liability incurred because the insured's negligence results in fire or explosion. Specified limit of liability required.

Watercraft Liability Coverage

Because the CONTRACTOR's provision of services involves utilization of watercraft, watercraft liability coverage must be provided to include bodily injury and property damage arising out of ownership, maintenance or use of any watercraft, including owned, non-owned and hired.

Coverage may be provided in the form of an endorsement to the general liability policy, or in the form of a separate policy coverage Watercraft Liability or Protection and Indemnity.

Aircraft Liability Coverage

Because the CONTRACTOR's provision of services involves utilization of aircraft, aircraft liability coverage must be provided to include bodily injury and property damage arising out of ownership, maintenance or use of any aircraft, including owned, non-owned and hired.

The minimum limits of coverage shall be per occurrence, Combined Single Limits for Bodily Injury (including passenger liability) and Property Damage.

Pollution Legal Liability Coverage

Pollution legal liability insurance is to be purchased to cover pollution and/or environmental legal liability which may arise from this Agreement or Contract.

United States Longshoremen and Harbor Workers Act Coverage

The Workers' Compensation policy is to be endorsed to include United States Longshoremen and Harbor Workers' Act Coverage for exposures which may arise from this Agreement or Contract.

- e. Both parties agree that best efforts be made to resolve the disputed amount.

- i. The acceptance by the CONTRACTOR of final payment shall be and shall operate as a full release and waiver of any and all claims by CONTRACTOR against the OWNER arising out of this Agreement or otherwise relating to one the individual Projects, except those identified in writing by the CONTRACTOR as unsettled in its final Application for Payment. Any payment, however, final, or otherwise shall not release the CONTRACTOR or its sureties from any obligations under the Contract Documents. Neither the acceptance of the Work nor payment by the OWNER shall be deemed to be a waiver of the OWNER's right to enforce any obligations of the CONTRACTOR hereunder or to the recovery of damages for defective Work not discovered by the City at the time of final inspection.
- j. No error or oversight in the making of payment or completion certificates shall relieve the CONTRACTOR from its obligation to do and complete the Work in accordance with the requirements of the Contract Documents.

Thereafter, the CONTRACTOR shall pay to the Subcontractors, monthly the amount retained for each incomplete item after each of said items is completed. Before issuance of final payment without any retainage, the Subcontractor shall submit satisfactory evidence that all payrolls, material bills and other indebtedness connected with each individual Project has been paid or otherwise satisfied, warranty information is complete, as-built markups have been submitted and instruction for the OWNER's operating and maintenance personnel is complete. The CONTRACTOR shall at all times, relevant to this Agreement, be an independent CONTRACTOR and maintain control over and have sole responsibility for CONTRACTOR's employees and other personnel.
